PROFESSIONAL SUMMARY

Dynamic and motivated Full Stack Developer with a strong foundation in both front-end and back-end technologies. My technical expertise, combined with a creative approach, enables me to design and develop elegant, user-friendly interfaces and robust web applications. Seeking a challenging position in an innovative company where I can contribute to impactful projects and further enhance my technical abilities.

SKILLS

Technologies:

HTML
CSS
Javascript
Typescript
Tailwind CSS
Bootstrap
React Js
React.js framework
Next.Js
Redux
Zustand

SASS
Node JS
MongoDB
PostgreSQL
API integration
State management
Front-end frameworks
Progressive web apps
RESTful API
Git proficiency
System design

Soft Skills:

Code debugging
Critical Thinking
Problem-Solving
Multitasking
Friendly, positive attitude
Teamwork and collaboration
Customer service

Attention to detail
Time management
Flexible and adaptable
Dependable and responsible
Planning and Forecasting
Management

WORK EXPERIENCE

Self Employed

Nov 2022 - Present

Freelancer

- Successfully managed multiple projects simultaneously, ensuring meticulous attention to detail and organization.
- Effectively negotiated contracts with clients and vendors, establishing mutually beneficial terms.
- Enhanced client satisfaction by consistently delivering high-quality work within deadlines.
- Strengthened client relationships through proactive communication and timely project updates.
- Analyzed user feedback to identify areas for improvement, driving continuous enhancement of services.
- Demonstrated flexibility and adaptability by quickly adjusting to changing project requirements under pressure.
- Evaluated customer needs and feedback to inform product and service enhancements.
- Committed to professional growth by completing training courses, workshops, and self-study to stay current with industry trends and emerging technologies.
- Optimized customer experience by providing superior service and effectively troubleshooting issues.
- Developed custom web solutions that increased user engagement and improved customer satisfaction.
- Actively participated in continuing education courses and workshops to deepen expertise in my field.

Clockcrow

Aug 2024 – Dec 2024

Frontend Developer

- Collaborated closely with UX/UI designers to transform their designs into functional web applications.
- Supported the marketing team by creating landing pages that effectively communicated promotional offers, resulting in increased user engagement and conversions.
- Worked with cross-functional teams to ensure seamless integration of new features and enhancements.
- Quickly adapted to new technologies and programming languages, contributing to overall team productivity.
- Debugged complex software issues, improving product stability and reliability before release.
- Utilized Git for version control to track changes and manage the development process effectively.
- Partnered with back-end developers to enhance website functionality and integrate new features.
- Designed and updated layouts to meet usability and performance standards.
- Participated in software field testing to verify the performance of developed projects.
- Optimized site content for mobile devices using responsive design techniques, improving user experience across platforms.
- Engaged in regular code reviews to uphold high-quality standards across all development efforts.
- Reduced development time by creating reusable code components for future projects, streamlining the coding process.
- Thrived in a fast-paced environment, consistently meeting tight deadlines

LANGUAGES

English – Native

EDUCATION

BSc: Computer Science, Osun State University

Osogbo, Osun, Expected Graduation: September 2026

HOBBIES AND INTERESTS

Open-source Contributions:

- Actively participate in open-source projects, collaborating with developers worldwide to improve software and share knowledge.
- Gained experience in version control (Git), coding standards, and community collaboration while enhancing coding skills across various languages and frameworks.

Internship:

- Engaged in hands-on training opportunities at Ascent Tech Hub, where I assisted with specific tasks and projects.
- Developed practical skills like software development and project management, learned industry best practices, and gained valuable insights into professional teamwork and communication.

Hackathons:

- Participated in several hackathons like Hacktoberfest, where I collaborated with teammates to design and develop innovative software solutions within a limited timeframe
- Developed prototype applications that address real-world challenges, fostering creativity and technical expertise
Strengthened analytical thinking and logical reasoning skills, which have proven invaluable in software development and project debugging. Participated in competitions that stimulated critical thinking and fostered innovative solutions.

Problem Solving:

- Enjoy tackling complex challenges, whether through coding challenges, puzzles, or competitive programming platforms.
- Strengthened analytical thinking and logical reasoning skills, which have proven invaluable in software development and project debugging. Participated in competitions that stimulated critical thinking and fostered innovative solutions.

Exploring New Technologies:

- Stay up-to-date with the latest technological advancements by experimenting with new tools, frameworks, and programming languages.
- Developed a growth mindset and adaptability by learning emerging technologies. Undertook self-led projects to apply new skills, which has broadened my technical knowledge base and expanded my development toolkit.
